

ABOUT THE COMPANY

NCD was founded in 1987 as a reseller of mainframe and mini-computer equipment (National Computer Dynamics Corp.) In 1991 NCD added a group specializing in the sale of electronic document management systems and document conversion services (National Consulting and Development Corp.). By 1999 NCD had exited the computer hardware business and began providing medical diagnostic imaging systems (NCD Medical Corp.).

For nearly two decades NCD has specialized in providing high technology equipment, data processing, healthcare and business automation solutions to a variety of organizations. NCD has always focused on providing high quality and economical solutions backed by the highest level of customer service.

Today NCD provides turnkey diagnostic imaging systems and services in conjunction with document imaging services. Our range of products and solutions is very broad, providing most modalities including X-Ray, CT, MRI, and nuclear medicine. We also provide Mini-PACS services, X-Ray film and record storage, film digitizing, and DICOM/document ASP hosting.

We provide equipment manufactured by the top vendors including GE, Philips, Siemens, Hitachi, Toshiba, and Rogan-Delft as well as solutions we have developed such as e-WIX and document conversion services. We also partner with major suppliers so we can offer and support a broad range of solutions.

Our staff and experience help us to provide the finest and most economical solutions available today both to commercial business and in healthcare. We understand the markets, the products, and the applications. We can develop solutions that take advantage of our skills and broad industry knowledge. We look forward to working with you.
